About us

Le Wagon is a global leader in immersive tech training.

Our mission is to train people from **all backgrounds** in **web development, data and no-code**, give them the best learning experience of their life, and help them accelerate in their career.

Founded in Paris in 2013, Le Wagon now has campuses in **+40 cities** across **25 countries**, including global tech hubs such as Berlin, London, Tokyo, Shanghai, Singapore, and Sao Paulo. Most importantly, Le Wagon is a community of **22,000+ graduates** - from all walks of life, including many entrepreneurs (who created 200+ tech startups and raised **\$860M+** globally), career changers, freelancers or digital nomads.

* This number is based on surveys sent 6 months after each training session. It has been updated in November 2023 and is based on 2467 respondents who graduated in 2022 worldwide. For local outcomes data, read the rest of this job report.

Scope of the report

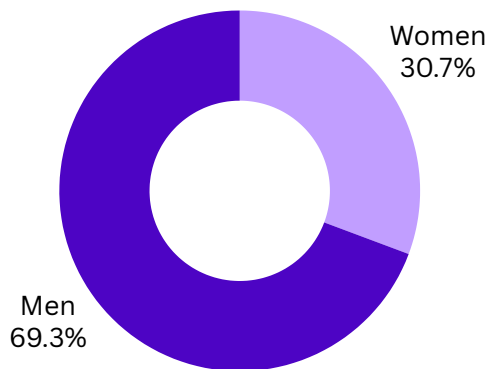

This report is based on surveys sent 6 months after each training session to our students graduating from bootcamps in London in 2022.

It has been updated in November 2023 and is based on 378 respondents.

Demographics

We're encouraging more women to enter tech.

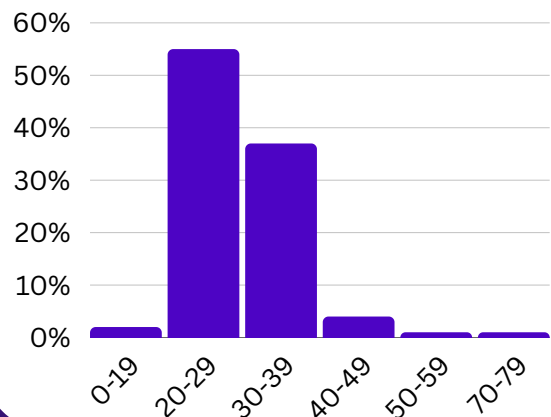

Le Wagon has inspired more women into tech, as 30% of our graduates are women. Slightly higher than the industry average, where 26% of tech employees are women (Tech Nation, 2022).

We're increasing our presence at women-led events and run our increasingly successful women's Web Development and Data Workshops.

Our diverse community comprises individuals from various backgrounds, including recent college and university graduates and career switchers, hailing from a wide range of countries.

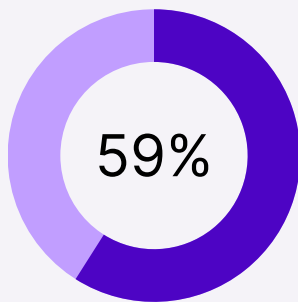

Age distribution

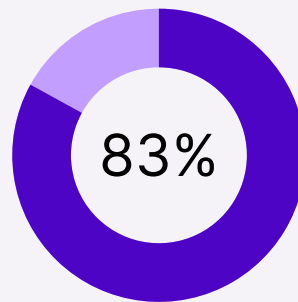

Employment outcomes

Our students attend our bootcamps with varying ambitions, from personal growth to upskilling, to changing careers or kickstarting their own businesses. Our dedicated careers team offers 1:1 support to students, helping them explore their options and achieve their ambitions.

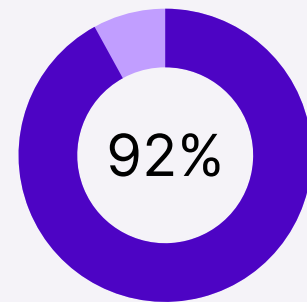

Employment rate 0 - 3 months post-bootcamp

Employment rate 3 - 6 months post-bootcamp

Employment rate 6 - 12 months post-bootcamp

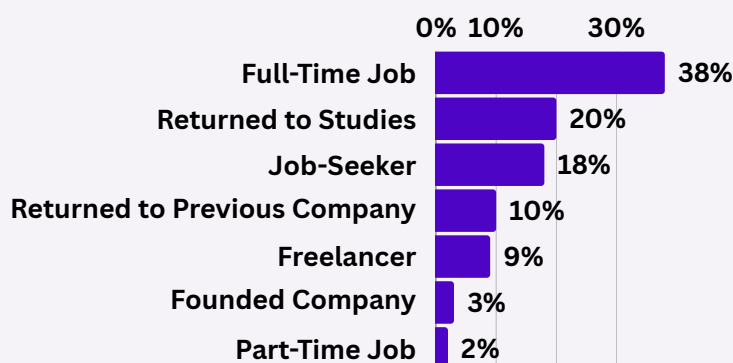

It takes our graduates **59 days** on average to discover their next job.

Types of contracts

Our alumni work in various types of contracts after graduating from one of our bootcamps.

Web Development course outcomes

Job title breakdown

After the course, our alumni are able to apply for different roles in software development, as an employee or a freelancer. Here's a breakdown of the most popular Web Development roles from our UK graduates post-bootcamp.

- ✓ **Software development jobs**
Software Engineer, Software Developer, Back-end Developer, Front-end Developer, Full-stack Developer, and more!
- ✓ **Tech-related jobs**
Product Manager, Ops Specialist, Customer Success Manager, Technical Project Manager, and more!

Hear from our alumni

”

The bootcamp helped me build a network of incredible, like-minded people and it gave me the technical foundation to start my career as a software developer.

Diego Larraz
Software Engineer
ex: Operations Analyst

”

The course helped me understand how you build a product from scratch, brainstorm ideas and communicate with others.

Ștefania-Ella Centea
Product Owner
ex: Insurance Broker

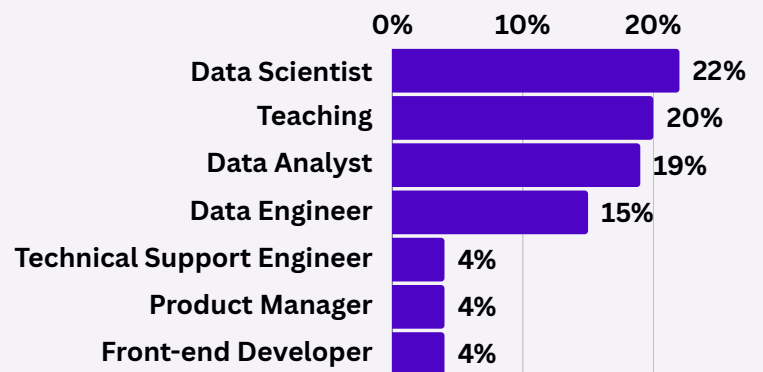

Data Science course outcomes

Job title breakdown

After the course, our alumni can apply for different roles in data, as an employee or as a freelancer. Here's a breakdown of the most popular Data Science roles from our UK graduates post-bootcamp.

- ✓ **Jobs that are 100% data driven**
Data Analyst, Business Analyst, Data Project Manager/Data Manager, Data/BI Consultant, Data Marketing, and more!
- ✓ **Hybrid data-business jobs**
Ops, Sales Ops, Growth, Product, Digital Marketing, Consulting, Product Data Manager, and more!

Hear from our alumni

I'd recommend Le Wagon to anyone who wants to learn how to code, understand what Data Science is and how AI can impact business decisions. It opens many doors.

Priscilla Fearn Kory
Senior Machine Learning Product Manager
ex: Store Manager

There's a real demand for data roles, it's a growing field and a very exciting area to work in!

Denise Chan
Sanctions Screening Controls Lead
ex: Data Manager
